

IIE Core Team

Although activity in 2008 was somewhat subdued due to the untimely passing away of a founder Training Faculty as well as the economic slowdown, IIE Mumbai has regrouped itself with a core team comprising experienced Members from the Mumbai Chapter of ISHRAE and an administrative leader too. The IIE at Mumbai will function out of the ISHRAE Mumbai Chapter office.

ISHRAE Institute of Excellence
Mumbai

Course Curriculum

The core team meets at regular intervals to carefully plan the curriculum and agenda so that the different technical segments and topics of the HVACR industry are addressed appropriately. Upcoming courses are regularly updated in the IIE Mumbai website as well.

The Beginning

IIE – ISHRAE Institute of Excellence began in June 2006 at Delhi and was followed by IIE Bangalore in October 2006 and IIE Mumbai in November 2006.

ISHRAE Mumbai Chapter has been conducting Training Programs since 2000 and continues to do so, now as IIE Mumbai.

Hundreds of course participants have benefitted from the focused learning environment and elaborate practical techniques that IIE Mumbai incorporates in its Training Programs. So popular are the programs that many of the participants travel to Mumbai from as far as Assam and Kashmir, and also from Dubai and Bangladesh. Indeed, the response has been overwhelming and encouraging enough to take IIE Mumbai to the next level of imparting knowledge and education.

The Objective

IIE's sole purpose being 'Training and Learning for the Practicing HVACR Professional', which is in line with ISHRAE's objective of providing a Platform for Learning for its Members.

IIE Mumbai...the story so far

IIE Mumbai started its activity in late 2006 with a core group of Faculty from amongst the ISHRAE Membership. With much enthusiasm, a 5-Day Training Program on '*Fundamentals of Air Conditioning*' was conducted at St. Xavier's College, Mumbai. Many more programs followed thereafter, with course topics such as '*Basics of Air Conditioning*', '*Practical Air Conditioning*', '*Controls*', '*Fans*', '*Kitchen Ventilation*', and so on.

How IIE Programs help you

The Course Content of the training programs develop and enhance the skills and confidence level of participants, making them adept and more knowledgeable technicians or engineers. This in turn benefits employers as productivity of employees increases. Over the years, IIE Mumbai's approach towards thoughtfully designing courses packed with unique content has made participants professionally competitive in the new era of '**GREEN**' collar jobs.

Eminent Faculty

At IIE Mumbai, you as a participant learn from the experts. The average experience in respective industry segments of the distinguished Faculty being 35 years. Learning from the 'Gurus' of the industry is what sets IIE apart.
